

Datasheet for ABIN3188180

10X Universal Restriction Enzyme Reaction Buffer

Overview

Quantity: 2 x 1.25 mL

Application: Restriction Digest (RD)

Product Details

Characteristics: abm offers 4 different sets of reaction buffers to ensure optimal activity of restriction enzymes. Each enzyme is supplied with its optimal buffer. Additional buffers can be ordered individually, under Cat.No. E201, E202, E203, and E204.

The 10X Universal Restriction Enzyme Reaction Buffer is the optimal buffer for most of abm's restriction enzymes, making double digests more convenient and efficient.

Application Details

Comment: • Reaction buffer for restriction enzyme digestion of doublestranded DNA

Restrictions: For Research Use only

Handling

Concentration: 10 X

Storage: -20 °C
