Human IL17REL cDNA Clone in Mammalian Expression Vector

Overview	
Quantity:	10 μg
Gene:	IL17REL
Species:	Human
Insert:	cDNA
Vector:	Mammalian Expression Vector
Application:	Protein Expression (PExp)
Product Details	
Purpose:	Untagged full-length cDNA clone from Human IL17REL is ideal for over-expression of native protein for functional studies.
Brand:	TrueClones®
Insert Length:	1000 bp
Vector Backbone:	pCMV6-XL5
Promoter:	Enhanced CMV Promoter, T7 Promoter
Bacterial Resistance:	Ampicillin
Expression Type:	Transient
Characteristics:	 These cDNA clones are isolated from full-length cDNA libraries and usually contain the coding sequence as well as the untranslated regions (UTRs) of the mRNA transcript appropriate to the library from which they were isolated. These cDNA clones are ideal for over-expression of native proteins for functional studies. Provided as 10 µg transfection-ready plasmids. Every lot of primer is tested to provide clean sequencing of cDNA clones.
Purification:	The DNAs were purified using PowerPrep HP Plasmid isolation kits for transfection ready plasmids.

Product Details Sequencing Primer: VP1.5 (forward) 5'GGACTTTCCAAAATGTCG 3', XL39 (reverse) 5'ATTAGGACAAGGCTGGTGGG 3' Components: • The cDNA clone is shipped in a 2-D bar-coded Matrix tube as dried plasmid DNA. • The package also includes 100 pmols of both the corresponding 5' and 3' vector primers in separate vials. **Target Details** IL17REL Gene: Alternative Name: IL17REL (IL17REL Products) NCBI Accession: NM_001001694, NP_001001694 **Application Details** Restrictions: For Research Use only Handling Format: Lyophilized Storage: RT,-20 °C Storage Comment: The lyophilized plasmid is stable for up to one year when stored at ambient temperature. Following dissolution in 100 µL dH20, store at -20 °C. Lyophilized primers are stable for up to one year when stored at ambient temperature. Following dissolution in 10 µL dH2O, store at -20 °C. Expiry Date: 12 months **Publications** Product cited in: Brozzetti, Alimohammadi, Morelli, Minarelli, Hallgren, Giordano, De Bellis, Perniola, Kämpe, Falorni: "Autoantibody response against NALP5/MATER in primary ovarian insufficiency and in autoimmune Addison's disease." in: The Journal of clinical endocrinology and metabolism, Vol. 100, Issue 5, pp. 1941-8, (2015) (PubMed).
