Datasheet for ABIN4836411 Human NSUN2 cDNA Clone in Bacterial Expression Vector (His-GST)

Overview

Quantity:	500 ng
Gene:	NSUN2
Species:	Human
Fusion tag:	His-GST
Insert:	cDNA
Vector:	Bacterial Expression Vector
Application:	Cloning (Clon)

Product Details

Purpose:	Bacterial expression of Human NSUN2 with His-GST
Insert Length:	1701 bp
Vector Backbone:	pPB-His-GST
Promoter:	T7 Promoter
Bacterial Resistance:	Kanamycin
Expression Type:	Transient
Specificity:	5-Nhel and 3-Xhol Fusion tag: Dual N-terminal tag, 6X Histidine followed by Glutathione-S-Transferase Protein which is cleavable with TEV (Size 27.9 kDa)
Sequencing Primer:	GST Forward primer: 5'-CACGTTTGGTGGTGGCGAC3', T7 terminator primer: 5'- GCTAGTTATTGCTCAGCGG-3'
T 1011	

Target Details

0	~	201
G	ei	IE.

V2 (NSUN2 Products)
PB vectors are low-medium copy number vectors in which the gene expression is driver
e strong T7 promoter.
v are some basic guidelines for using the pPB vectors for protein production:
e pPB vectors are designed to be used with E. coli strains that are DE3 lysogens i.e. the
E. coli cell has a source of T7 RNA polymerase.
combinant protein induction is usually done at OD600 of 0.6-1.2 using Isopropyl β -D-1-
alactopyranoside (IPTG) at a final concentration of 0.05 -1mM.
e ideal concentration of IPTG must be determined empirically for each recombinant
in/cell-line. Similarly, the length of time and temperature for induction provide other
ples that need to be optimized on a case-to-case basis.
r toxic proteins, it is recommended to go for shorter induction time and also to try and
ress basal recombinant gene expression through (a) addition of glucose or use of pLysS
nid. Please note that special cell-lines are also available in the market that cater to
ession of toxic proteins.
ce grown for the desired length of time, harvest cells by centrifugation and either freeze
ells at -80°C (as such or after re-suspending in the desired buffer) or proceed with the
cation.
esearch Use only

Handling

Target Details

Format:	Liquid
Buffer:	10 mM Tris-HCl, 1 mM EDTA, pH 8.0
Storage:	-20 °C
Storage Comment:	1 year when stored at -20° C or lower in a non-frost free freezer.
Expiry Date:	12 months
