Datasheet for ABIN4837247 Human PDE4C cDNA Clone in Bacterial Expression Vector (His-GST)

Overview

Quantity:	500 ng	
Gene:	PDE4C	
Species:	Human	
Fusion tag:	His-GST	
Insert:	cDNA	
Vector:	Bacterial Expression Vector	
Application:	Cloning (Clon)	

Product Details

Purpose:	Bacterial expression of Human PDE4C with His-GST	
Insert Length:	1446 bp	
Vector Backbone:	pPB-His-GST	
Promoter:	T7 Promoter	
Bacterial Resistance:	Kanamycin	
Expression Type:	Transient	
Specificity:	5-Nhel and 3-Xhol Fusion tag: Dual N-terminal tag, 6X Histidine followed by Glutathione-S-Transferase Protein which is cleavable with TEV (Size 27.9 kDa)	
Sequencing Primer:	GST Forward primer: 5'-CACGTTTGGTGGTGGCGAC3', T7 terminator primer: 5'- GCTAGTTATTGCTCAGCGG-3'	

Target Details

 by the strong T7 promoter. Below are some basic guidelines for using the pPB vectors for protein production: 1. The pPB vectors are designed to be used with E. coli strains that are DE3 lysogens i.e. host E. coli cell has a source of T7 RNA polymerase. 2. Recombinant protein induction is usually done at OD600 of 0.6-1.2 using Isopropyl β-E thiogalactopyranoside (IPTG) at a final concentration of 0.05 -1mM. 3. The ideal concentration of IPTG must be determined empirically for each recombinant protein/cell-line. Similarly, the length of time and temperature for induction provide other variables that need to be optimized on a case-to-case basis. 4. For toxic proteins, it is recommended to go for shorter induction time and also to try a suppress basal recombinant gene expression through (a) addition of glucose or use of p plasmid. Please note that special cell-lines are also available in the market that cater to expression of toxic proteins. 5. Once grown for the desired length of time, harvest cells by centrifugation and either from the desired length of time. 	Alternative Name:	PDE4C (PDE4C Products)

Handling

Target Details

Format:	Liquid	
Buffer:	10 mM Tris-HCl, 1 mM EDTA, pH 8.0	
Storage:	-20 °C	
Storage Comment:	1 year when stored at -20° C or lower in a non-frost free freezer.	
Expiry Date:	12 months
