## Datasheet for ABIN5286021 Mouse AMY1 CRISPR gRNA + Cas9 in Lenti Particles

| Overview              |                                                                                                                                                                                                 |
|-----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Quantity:             | 300 µL                                                                                                                                                                                          |
| Gene:                 | Alpha-amylase 1 (AMY1)                                                                                                                                                                          |
| Species:              | Mouse                                                                                                                                                                                           |
| Insert:               | gRNA + Cas9                                                                                                                                                                                     |
| Vector:               | Lentiviral Vector                                                                                                                                                                               |
| Application:          | Protein Expression (PExp), Genome Editing with Engineered Nucleases (GEEN)                                                                                                                      |
| Product Details       |                                                                                                                                                                                                 |
| Purpose:              | Individual gRNA against Amy1 in Lentiviral Particles with a Titer of >1x10e7 IU/mL. (sgRNA and Cas9 in a single vector)                                                                         |
| Vector Backbone:      | pLenti-U6-sgRNA-SFFV-Cas9-2A-Puro                                                                                                                                                               |
| Promoter:             | U6 Promoter, SFFV Promoter                                                                                                                                                                      |
| Selectable Marker:    | Puromycin                                                                                                                                                                                       |
| Bacterial Resistance: | Ampicillin                                                                                                                                                                                      |
| Expression Type:      | Stable, Transient                                                                                                                                                                               |
| Sequence:             | Sequence available upon placing order                                                                                                                                                           |
| Specificity:          | GRNAs are designed for use with Cas9 Nuclease only.<br>Cas9 Nuclease is under the control of the SFFV promoter which should work for a vast majority<br>of cells, except ES cells or iPS cells. |
| Sequencing Primer:    | U6 Forward Primer: 5'TACGTCCAAGGTCGGGCAGGAAGA3'                                                                                                                                                 |
| Components:           | Lentiviral particles with an individual gRNA (300 $\mu L)$ for a specific sequence of Amy1                                                                                                      |

| Target Details      |                                                                                                  |  |
|---------------------|--------------------------------------------------------------------------------------------------|--|
| Gene:               | Alpha-amylase 1 (AMY1)                                                                           |  |
| Alternative Name:   | Amy1 (AMY1 Products)                                                                             |  |
| NCBI Accession:     | NM_007446                                                                                        |  |
| Application Details |                                                                                                  |  |
| Application Notes:  | Recommended for quality control: Restriction Enzyme Digest and Sequencing                        |  |
| Restrictions:       | For Research Use only                                                                            |  |
| Handling            |                                                                                                  |  |
| Format:             | Viral Particles                                                                                  |  |
| Storage:            | -80 °C                                                                                           |  |
| Expiry Date:        | 12 months                                                                                        |  |
| Publications        |                                                                                                  |  |
