shipped with 2 vector sequencing primers.

## Target Details

Gene:	MBD3L4
Alternative Name:	methyl-CpG-binding domain protein 3-like 4-like (MBD3L4) ( <a href="#">MBD3L4 Products</a> )
Background:	This gene encodes a member of a family of proteins that are related to methyl-CpG-binding proteins but lack the methyl-CpG binding domain. There is no definitive support for transcription of this locus, and the transcript structure is inferred from other family members.
