## Datasheet for ABIN5391481 Human ABCD3 ORF Clone in Lentiviral Vector (GFP tag)

Overview	
Quantity:	10 µg
Gene:	PMP70 (ABCD3)
Species:	Human
Fusion tag:	GFP tag
Insert:	ORF
Vector:	Lentiviral Vector
Application:	Protein Expression (PExp)
Product Details	
Purpose:	Lentiviral Vector with ORF clone of Human ATP-binding cassette, sub-family D (ALD), member 3
	(ABCD3) transcript variant 2, C-term GFP tagged
Brand:	LentiORF
Insert Length:	711 bp
Vector Backbone:	pLenti-C-mGFP
Promoter:	CMV Promoter
Bacterial Resistance:	Chloramphenicol
Expression Type:	Transient
Specificity:	Restriction Site: Sgfl-Mlul
Characteristics:	mGFP tagged, C-terminal
	Broad cell spectrum: Lentivirus infect most cells, dividing & non-dividing, easy-to-transfect &
	hard-to-transfect cells.
	High transduction efficiency
	Convenience: Minimal need for optimization.

Product Details	
	Safety: 3rd generation system with improved biosafety.
Components:	10 µg of lyophilized plasmid
Target Details	
Gene:	PMP70 (ABCD3)
Abstract:	ABCD3 Products
Background:	The protein encoded by this gene is a member of the superfamily of ATP-binding cassette (ABC) transporters. ABC proteins transport various molecules across extra- and intra-cellular membranes. ABC genes are divided into seven distinct subfamilies (ABC1, MDR/TAP, MRP, ALD, OABP, GCN20, White). This protein is a member of the ALD subfamily, which is involved in peroxisomal import of fatty acids and/or fatty acyl-CoAs in the organelle. All known peroxisomal ABC transporters are half transporters which require a partner half transporter molecule to form a functional homodimeric or heterodimeric transporter. This peroxisomal membrane protein likely plays an important role in peroxisome biogenesis. Mutations have been associated with some forms of Zellweger syndrome, a heterogeneous group of peroxisome assembly disorders. Alternative splicing results in multiple transcript variants encoding distinct isoforms.
NCBI Accession:	NM_001122674, NP_001116146
Application Details	
Application Notes:	Ideal For Tracking the over-expressed protein in tranfected cells
Restrictions:	For Research Use only
Handling	
Format:	Lyophilized
Storage:	4 °C/-20 °C
Publications
