

## Datasheet for ABIN5519393

### GC Enhancer

#### Overview

---

Quantity: 200 µL

Application: Polymerase Chain Reaction (PCR)

#### Product Details

---

Purpose: GC Enhancer can be used to increase sensitivity and specificity for GC/AT-rich template or complex template.

Specificity: It is especially suitable for Pfu enzymes. The stock concentration is 5x, and the working concentration can be varied between 0.5x to 2.5x.

#### Application Details

---

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

#### Handling

---

Storage: -20 °C

Storage Comment: at -20°C for two years

Expiry Date: 24 months

#### Publications

---
