| Quantity:                     | 50 reactions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Application:                  | Polymerase Chain Reaction (PCR), Restriction Digest (RD)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Product Details               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Purpose:                      | EasyPure® Bacteria Genomic DNA Kit uses lysozyme and moderate lysis buffer to lyse cells.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Brand:                        | EasyPure®                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Characteristics:  Components: | Proteinase K is used for protein digestion and RNase A used for RNA digestion. DNA is specifically bound to silica-based column in hypersaline condition, and DNA is eluted by low salt and high pH solution. This kit is suitable for isolating high quality genomic DNA from Grampositive and Gram-negative bacteria. The isolated DNA is suitable for PCR, restriction enzyme digestion, and Southern blot.  - Fast: the whole process can be completed in 50 minutes.  - High yield: DNA yield up to 20 µg.  Resuspension Buffer 11 (RB11), Lysis Buffer 11 (LB11), Binding Buffer 11 (BB11), Clean Buffer 11 (CB11), Wash Buffer 11 (WB11), Elution Buffer (EB), Genomic Spin Columns with Collection Tubes |
| Application Details           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Application Notes:            | PCR, restriction enzyme digestion, and Southern blot.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Restrictions:                 | For Research Use only                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Handling                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
